The amount of time, effort and expense involved in hosting an event such as this can be challenging. Without dedicated individuals at the university, state level personnel, agri-businesses, business and industry that support agriculture, the College of Agriculture student organizations, ASU Farm personnel and agriculture teachers, events like this would not take place. Through donations of time, expertise, or materials, the assistance and dedication from these groups and individuals have helped make this year’s event another successful one.

With this in mind the College of Agriculture would like to extend a sincere thanks to the following supporting businesses, agencies and individuals:
