Guitar Class II  
Dr. Timothy Crist

I. Primary Texts  
Crist, Timothy. *Guitar Class Packet Supplement*

II. Necessary Equipment  
An Acoustic Guitar with nylon strings  
A Metronome  
A footstool

III. Description  
Prerequisite: Guitar Class I

Guitar Class II. 1 hr.; Open to all ASU Students. Meeting Fall and Spring Semesters, Guitar Class II continues the study of fundamental guitar techniques established in Guitar Class I. These techniques will be applied to more advanced literature for the guitar as assigned by the instructor. The class format will resemble that of a group lesson.

IV. Course Requirements  
The student will have two exams (audits). One at Midterm and one during Week 15. Each of these audits will involve an individual performance by each student for the instructor. The student will perform prepared pieces and/or techniques as required by the instructor at these times. Criteria for the evaluation of each student by the instructor will be based on the following: preparation, demonstration of proper technique, correct pitches, correct rhythms, coordination/fluency. "Spot check" quizzes during the semester will involve in-class evaluations of individual students. Finally, a percentage of each student's final grade will involve daily class preparation and attendance.

V. Visiting Artists  
In the event that visiting guitarists perform at ASU, the class will be required to attend such performances. The class may also be required to attend student guitar recitals.
